

## Why Add BeBalanced Express to Your Health Club?

BeBalanced Express is a powerful wellness franchise model designed to integrate seamlessly into your health club, helping your members go beyond fitness with a natural, results-driven solution for lasting weight loss and hormone balance.

### Benefits to Your Health Club:

- **Stronger Member Retention** – BeBalanced clients become more engaged and loyal to your club.
- **Attract New Members** – Draw in health-conscious women actively seeking holistic wellness and a solution to their stubborn weight.
- **Boost Revenue** – BeBalanced opens up new wellness-focused services and cross-sell opportunities.
- **Offer a Natural Alternative to GLP-1 Injections & HRT** – Provide a non-pharmaceutical approach to weight loss that aligns with your members' healthy lifestyle goals.

## What Is BeBalanced?

BeBalanced offers a revolutionary approach called **natural hormone balancing**, which targets two of the most common challenges women face as they age:

- Stubborn weight that doesn't respond to traditional exercise or diets
- Hormone-related symptoms ranging from PMS to menopause

Most women experience an average weight loss of 15–22 pounds in just one month—all without medication, extreme dieting, or intense workouts. They also report significant relief from hormonal symptoms, allowing them to feel their best both inside and outside the gym.

BeBalanced has helped transform the lives of thousands of women through its nationwide centers. Now, your health club can offer this transformational service through the **BeBalanced Express** model.

## Reach the Women Who Matter Most to Your Business:

Whether she's a current club member who deepens her commitment through BeBalanced, or a new member drawn in by your solution to "stubborn weight" offering. BeBalanced helps you connect, serve, and retain them both.

### Be the Exclusive Provider in Your Area

Empower women to take control of their hormones, health, and confidence—naturally.

BeBalanced Express.
